

Johnny Zoom...

Found a wonderful home...

Johnny Zoom is a Morab (Morgan/Arabian cross), 8 - 9 years old.

Johnny was originally chosen to be our education horse because he is so clever and has outward reminders of the careless handling he received as a young horse. Johnny has multiple facial & chest scars caused by apparent close contact with sharp metal or wire. His nostril flare was cut off and his nostril was stitched to a small opening. This does not appear to interfere with his breathing in any way. We affectionately call him "Johnny One-Nose."

Johnny has traveled to the Parelli Ranch to work with his partner at Level 2 Training and continues to progress with her.

Johnny has been adopted by his training partner, and will be moving to the Houston area, when his partner and her family relocate in the very near future
